I want to tie u up... And massage ur boobs with oil for a long time teasing u

Thursday, Aug 24 • 8:52 a.m.

I can com upstairs and try to help u sleep

I'm not there yet. I can't tell if we're not fighting because we haven't really seen each other all week or if things are actually changing

U wouldn't have to do anything, I could just go down on u to help u sleep that's it

That's never how it works. You always end up wanting to do something. And I'm exhausted and I smell

No I would do that for you and not go farther
